Tentative Syllabus
CS 308: Software Engineering
Spring 2021

Lecture Hours:  
Mondays 16:40 – 17:30 (FMAN 1099)  
Wednesdays 10:40 – 12:30 (FENS G077)  
Lab Hours :  
Mondays 09:40 – 12:30 (online)

Zoom Lectures: https://sabanciuniv.zoom.us/j/95280284229?pwd=ZWZjRmJWUmVfNjJjZ2xXU2pxUm9TQT09
Labs: TBA
Instructor’s office hours: https://sabanciuniv.zoom.us/j/6237177697

Instructor Cemal Yılmaz  
E-mail: cyilmaz@sabanciuniv.edu  
Office: FENS G019  
Office Hours: Wednesdays 09:40 – 11:30 (online)

Software Engineering: 1) the application of a systematic, disciplined, quantifiable approach to the development, operation, and maintenance of software; that is, the application of engineering to software. (2) The study of approaches as in (1) ”  

DESCRIPTION
This course is an introductory level course to the fundamentals of software engineering. One focus of this course is to provide software engineering knowledge and skills that students can put into immediate practical use. Topics covered include: Requirements engineering, architecting and designing software systems, quality assurance, managing software process, and getting familiar with the state-of-the-art software development tools.

TENTATIVE PROGRAM

week 1  Introduction to Software and Software Engineering  
week 2  Managing the Software Process  
week 3  Scrum  
week 4  Requirements Engineering  
week 5  Modeling with Classes I  
week 6  Modelling with Classes II  
week 7  Modeling Interactions and Behavior  
week 8  Software Design Patterns II  
week 9  Software Design Patterns III  
week 10  Software Design Patterns I  
week 11  Software Architecture  
week 12  Software Verification and Validation I  
week 13  Software Verification and Validation II
GRADING POLICY

<table>
<thead>
<tr>
<th>Contribution (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Short Quizzes</td>
</tr>
<tr>
<td>Midterm</td>
</tr>
<tr>
<td>Final</td>
</tr>
<tr>
<td>Project</td>
</tr>
</tbody>
</table>

No makeups for the short quizzes! The average of the best $n-2$ quiz grades will be used as the final quiz grade, where $n$ is the total number of quizzes.

Be aware that, since the term project is an integral part of the course, getting good grades in the exams and quizzes is not sufficient to pass the course! To be assessed as successful, students must significantly contribute to their project group’s success.

COURSE PROJECT

Each project will be carried out by using Scrum in a team of students.

TURN-IN and LATENESS POLICY

Project progress demos and assignments (if any) may be turned in up to 24 hours late with 15% penalty, or 24 to 48 hours late with 35% penalty. No assignments will be accepted more than 48 hours late for any reason!

COLLABORATION POLICY

Project groups may discuss ideas about their projects with other groups, but they should not share any project artifacts with others (e.g., requirement documents, design documents, source code, etc.) Each group is responsible in making sure that their artifacts are well protected from others.

MAKE-UP POLICY

It’s simple. Do NOT miss an exam!

If you do miss an exam, no makeup exams will be granted unless you have a documented emergency situation and notify the instructor within 48 hours after the exam date.

TEXTBOOK

There is no textbook for this course. The following, however, is a list of suggested books:

OTHER POLICIES

- All the lectures and lab sessions will be streamed synchronously and then the recordings will be published via SUCourse
- For the instructor’s office hours, send an email to the instructor, indicating a couple available time slots within the office hours, so that the meeting is scheduled beforehand.
