4 Textbook

5 Lecture Slides and Recordings

Lecture slides and lecture recordings will be available on SUCourse+.

6 Course Description

The course covers the material listed below. Chapters refer to the above mentioned textbook.

- Chapter 8: Sampling Distributions
- Chapter 10: Point Estimation
- Chapter 11: Interval Estimation
- Chapter 12: Hypothesis Testing
- Chapter 13: Test of Hypothesis Involving Means, Variances and Proportions
- Chapter 14: Regression and Correlation . . . and more if time permits

7 Exams and Other Items

1. There will be one midterm and one final. Their weights are as follows:
   
   Midterm: 45%
   Final: 55%.
   
   Both the midterm and the final will be (non-online) written exams held in classrooms on campus.
   
   The midterm date & time: November 30th, at 19.40.
   
   Final exam date & time will be announced by the Student Resources.

2. Make-up policy
   
   There will be a single make-up exam after the final exam. The make-up exam grade will replace all your missing exam grades.
   
   If you miss an exam, you do NOT need to contact the instructor to explain the reason.
   
   It is recommended that you take both exams as scheduled. The make-up exam will be cumulative. The date of the make-up exam will be announced later.
3. During the exams, the use of cheat sheets and electronic equipments (including cell phones, smart watches, calculators, computers etc.) are NOT allowed. Exams are closed book and closed notes exams.

4. Students are expected to attend the lectures as much as they can. For the ones they miss, they are expected to watch the recordings on SUCourse+.

5. It is students’ responsibility to follow all the announcements made in class and those made via SUCourse+.

6. Students are advised to study regularly every week next to going to classes and attending the recitations. If the material discussed in class is not fully understood, students should make an appointment with the instructor or one of the course assistants after the class.
