About MJC 100

MJC 100 is a one ECTS-credit required course which gives a general orientation to students on Diploma Programs and introduces students to the interdisciplinary education system of Sabancı University. Sabancı University is unique in Turkey for having this system and we would like our students to benefit most from this during their undergraduate years. MJC 100 course is a prerequisite for Major Declaration, which means you have to pass this course in order to declare your major.

MJC 100 course has two very important objectives:

- To help students make an *informed choice* on their Diploma Programs.
- To give students an understanding of the system at Sabancı University and *encourage them to get an interdisciplinary education* no matter what their choice of diploma program is.

Requirements

- Students are expected to complete the written assignment called “Dream a little” in respect to the instructions and submit on time. Your submissions will be assessed and successful ones will get a Satisfactory “S” grade regardless of their current attendance points.

If you have any questions or concerns please contact us, ebru.saylan@sabanciuniv.edu.

Good luck
